SECRETS OF  
FERMENTS**

mission S.T.H :  
the ultimate puzzle

*Doctorama (2025)*

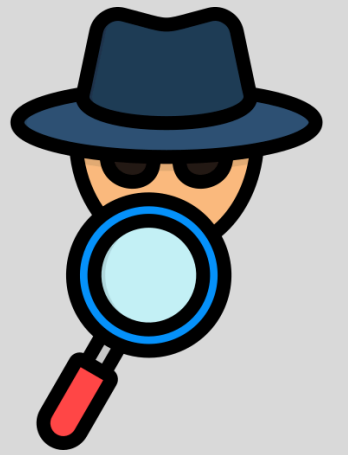

*brought to you by: Juan Carlos Ariute Oliveira*

# SYNOPSIS

*Top-secret agent Juan Ariute Oliveira travelled all the way from Brazil for a mission of utmost importance in the heart of Brittany: to discover the secret to making the perfect yoghurt. Using his best scientific skills, he's getting to the bottom of the biological mysteries behind one crucial ingredient...*

*And no, of course I'm not spilling the secret right here!*

## **WANTED (SOME GOOD REVIEWS)**

*"A delicious blend of spy thriller and scientific comedy — Agent Juan proves that saving the world can start with a spoon (or a computer?)" - O GLOBO*

*"Unexpectedly funny and disarmingly charming. Who knew researching probiotics could feel like international espionage?" - LE MONDE*

*"Bold, absurd, and entertaining. A mission in French Brittany has never felt so thrilling and so dairy-driven!" - NY TIMES*

*"He wears really nice outfits." - VOGUE*
